PROJECTS

Pizza sale database report presentation using power BI

07 Feb, 2025 - 11 Feb, 2025

Mentor: Amol Aher | **Team Size:** 1

Key Skills: Power BI database management Microsoft Technologies

A Pizza Sales Report in Power BI provides insights into sales performance, customer preferences, and business trends. It includes key metrics like total sales, revenue by pizza type, best-selling pizzas, peak sales hours, and customer demographics. Visualizations such as bar charts, pie charts, and line graphs help track trends and identify growth opportunities. The report enables businesses to make data-driven decisions on inventory management, pricing strategies, and marketing efforts to boost sales and profitability.

ASSESSMENTS / CERTIFICATIONS

Azure Fundamental

Azure Fundamentals is a beginner-level understanding of Microsoft Azure, covering its core cloud concepts, services, pricing, security, and management tools. It introduces Infrastructure as a Service IaaS, PaaS, SaaS and helps learners grasp how to use Azure for computing, storage, networking, and database needs in the cloud.
